

Gogo AVANCE LX5

The AVANCE System with Gogo 5G connectivity

Gogo AVANCE LX5 is the 5G solution. A powerhouse AVANCE platform system that drives your entire inflight entertainment and connectivity (IFEC) experience, all from one LRU.

Gogo AVANCE LX5 is your gateway to exceptional inflight 5G Wi-Fi: more speed, more devices, more bandwidth, and more live experiences. AVANCE LX5 will unleash the performance you need for the ever-increasing digital demands of business aviation passengers, crew, charter operators, and corporate fleets. Get on board with Gogo AVANCE LX5 and gain the performance you need now; from the partner that will prepare you for everything that comes next.

FEATURES

Incredibly fast Gogo 5G inflight internet – supports streaming

- Streaming video and audio, VPN support, web browsing, email with large attachments and more
- Gogo 5G network will provide 100% coverage in the contiguous U.S. and parts of Canada

Smart router for an integrated, automated cabin experience

- Advanced 802.11ac dual-band router (5GHz & 2.4GHz) maximizes bandwidth and optimizes in-cabin Wi-Fi performance
- Dynamic, multi-bearer data and voice management

Terrestrial modem

- Complimentary ground connectivity in 200+ countries

Gogo Vision inflight maps, entertainment, and information

- Interactive 3D moving map
- News clips
- eMagazines (subscription required)
- Unlimited licensed movies (subscription required)
- Unlimited TV episodes (subscription required)
- Multi-language audio tracks and user interface selection
- Automatic content updates available at any Gogo Cloud global FBO location or via Gogo Cloudport
- One touch access to select Cabin Management System (CMS) services (contact Gogo for information)
- Destination weather (coming soon)

Path to Gogo Galileo - Global LEO broadband connectivity

- 1Full global satellite coverage, including polar regions and over oceans

- Low latency
- Greater speed and capacity
- Streamlined installation: AVANCE LX5 can power Gogo Galileo via an easy addition of the antenna terminal
- 1 AVANCE LX5 system + 1 antenna (HDX or FDX) = Global coverage

Award-winning service and support

- 24/7/365 monitoring, global support, and remote service activations
- Gogo DASH tools provide visibility into the health of Gogo systems and control to customize your connectivity experience

SPECIFICATIONS

Aviation grade

- Built to DO-178C Design Assurance Level D
- Installs inside or outside the pressure vessel

Dimensions and weight

- MCU size: 5MCU
- LRU dimensions: 6.34" W x 7.64" H x 13.24" D
- LRU with mounting tray dimensions: 6.55" W x 9.99" H x 16.24" D
- LRU weight: 15.5 LBS
- Mounting tray weight (with fan): 4.1 LBS
- Two (2) multi-band (MB13) antennas
- Antenna dimensions: 4.52" W x 15.07" L x 7.79" H (per antenna)
- Antenna weight: 6.0 LBS (per antenna)

Electrical characteristics

- Voltage Range: 20.5 to 32.2 VDC
- Maximum Power: 303W at 28V input with heaters on
